POSTED IN: CONSPIRACIES, UFO AND ALIEN

Michael Cohen m.cohen@allnewsweb.com

On January 19 of this year Adam Maksimov (photo below) of the town of Jamoltowek in Poland, near the border with The Czech Republic, saw something he will never forget.

Sometime after midnight he went outside to charge his car battery. He was interrupted by a deafening noise which he likened to rockets blasting off. Then he heard a buzzing sound which he compared to that of a swarm of bees. The noises were followed by silence and then noise and then silence again.

Then a blinding light. At this point Mr Maksimov saw a huge saucer shape craft or UFO, with a triangular glowing blue beam on its underbelly, rise above the ground, sway and eventually shoot up and off into the night sky at an impossible speed.

As the UFO vanished it lit up the area so that 'one could see every twig in the field.

Mr Maksimov's wife also witnessed the UFO take off from a window.

Mr Maksimov, who never believed in things like UFOs, was perplexed. He was more surprised when he discovered five other villagers had seen exactly the same thing as he did.

Mr Henryk, also of Jamoltowek, described the saucer as blindingly bright and of dazzling colour: 'Now I am certain UFOs are real' he noted to a Polish media outlet.

As a result of his encounter Adam Maksimov took an interest in ufology and a few months later discovered that the German press had reported that a number of airport radars had picked up a UFO the very same night of his amazing sighting.

'I now am certain none of us were imagining' concludes Mr Maksimov.

No authority has yet come forward with an explanation for the events of the night of 19 January 2009.
